ENGINEER'S "REPORT"

EXHIBIT "A"

CITY OF NEWPORT BEACH

ASSESSMENT DISTRICT NO. 78

(Little Balboa Island)

METHOD AND FORMULA OF ASSESSMENT SPREAD

Article XIID requires and the statutes provide that assessments, as levied pursuant to the provisions of the "Municipal Improvement Act of 1913", must be based on the special benefit that the properties receive from the works of improvement. It is further necessary that the property owners receive a special and direct benefit distinguished from that of the general public.

The special benefits that inure to the property owners within the boundary of Assessment District No. 78 are twofold; first, the undergrounding of existing overhead electrical and telephone lines and the removal of supporting poles; and second, the construction of a new and improved underground electrical and telephone system, and the necessary appurtenant work to provide complete, functional, safe and secure improvements for all parcels and lots within the boundary of the Assessment District. Because all of the parcels receiving special benefit from the proposed improvements contain residences, it is reasonable to spread the assessments using an assessment unit (AU) formula where each residence is assessed relative to a "standard" residence (1.0 AU) within the Assessment District that receives a full measure of special benefit. The construction cost and proportionate share of the incidental costs for bid items will, therefore, be spread on an assessment unit basis to those areas or subareas of the Assessment District that specially benefit from the works of improvement. Because the benefit from improved electric and telephone service is specific to each parcel, there is no general benefit component that is received by parcels outside of the Assessment District boundary or by the general public. The special benefit received from the above-cited works of improvement is estimated to be in direct proportion to the number of assessment units (AU's) allocated to each parcel as described below.

The proportionate special benefit that each parcel receives is based upon the fact that each parcel receives approximately the same special benefit from the new electric and telephone distribution facilities that are proposed to be constructed and by the removal of the existing overhead distribution facilities. The use of the formula throughout the Assessment District is given below. Please refer to the Assessment Diagram for the location of existing facilities.

Each parcel within the Assessment District contains a residence, or is capable of having a residence built upon it, and is assessed one (1.0) AU, with the exception of the parcel designated as Assessment No. 73 which is a small triangular parcel comprised of approximately 95 square feet which is situated at the intersection of

Jade Avenue and the alley between Jade Avenue and East Bay Front. Said Assessment No. 73 is too small to have a residence or business that would need electric or telephone service and therefore receives no assessment.

During the time that this Engineer's Report was being written, a variety of other assessment formulae were considered.

Front footage was considered as a method of spreading assessments but was rejected because several of the parcels have front footages that are not reflective of the special benefit gained from the type of proposed improvements.

Acreage was rejected as a method of spreading assessments because some of the parcels are half of the size of others. The use of an acreage formula would not reflect the special benefit derived from the proposed improvements.

The following proposed revision is recommended in this confirmed Engineer's Report:

It has been determined that the parcel designated as Assessment No. 163 is not a buildable lot. This determination was made jointly by the City of Newport Beach Planning Department and the City Attorney. Due to it's triangular shape and the required setbacks for building a residence, the parcel has inadequate buildable area for this neighborhood. Therefore, it is proposed that this parcel not be assessed. The project estimate and related financial information in this Engineer's Report reflect this revision. Please note that this circumstance does not apply to any substandard lots that already have residences on them requiring underground utility drops.

In conclusion, it is my opinion that the assessments for the above-referenced Assessment District have been spread in direct accordance with the special benefits that each parcel receives from the works of improvement. It is my further opinion that:

- a. The proportionate special benefit derived by each identified parcel has been determined in relationship to the entirety of the cost of the construction of the works of improvement.
- b. No assessment has been imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.
- c. Only special benefits have been assessed.

ENGINEER'S REPORT

PART V(A)

CITY OF NEWPORT BEACH

ASSESSMENT DISTRICT NO. 78

(Little Balboa Island)

DESCRIPTION OF WORKS OF IMPROVEMENT

The following improvements are proposed to be constructed and installed on the entire area of Little Balboa Island which is located east of the Grand Canal.

1. Removal of 50 existing power and telephone poles.
2. Removal of 230 overhead resident service drops for both electric and telephone service.
3. Construction of approximately 4,885 linear feet each of mainline underground power and telephone conduit, with appurtenant vaults, handholes and pullboxes.
4. Construction of required service conduit and appurtenances to private property lines.

The improvements will be designed and constructed by the Southern California Edison (electric) and Pacific Bell (telephone). The City of Newport Beach will inspect the work for conformance to applicable City standards and specifications. Once completed, the underground facilities will become the property and responsibility of Southern California Edison and Pacific Bell.

Each owner of property located within the Assessment District will be responsible for arranging for and paying for work on his or her property necessary to connect facilities constructed by the public utilities in the public streets or easements to the points of connection on private property. Conversion of individual service connections on private property is not included in the work done by the Assessment District.

Failure to convert individual service connections on private property may result in a recommendation to the City Council that the public utility companies be directed to discontinue service to that property. Overhead facilities cannot be removed until all overhead service has been discontinued.

The location of the existing facilities to be undergrounded are shown on the Assessment Diagram in Part IV of this "Report".

CERTIFICATION OF COMPLETION OF ENVIRONMENTAL PROCEEDINGS

**CITY OF NEWPORT BEACH
COUNTY OF ORANGE
STATE OF CALIFORNIA**

The undersigned, under penalty of perjury, CERTIFIES as follows:

1. The improvements to be constructed under the proceedings in Assessment District No. 78 are categorically exempt from the provisions of the California Environmental Quality Act (CEQA) under the provisions of Paragraph 15302, Class 2 (d) of "Guidelines For Implementation of the California Environmental Quality Act", as adopted by the Secretary for Resources of the State of California, June 1992.
2. The undergrounding to be done under Assessment District No. 78 is categorically exempt from the requirement for the preparation of environmental documents under the California Environmental Quality Act guidelines because the Secretary for Resources has found that conversion of overhead electric utility distribution system facilities to underground locations where the surface is restored to the condition prior to the undergrounding, does not have a significant effect on the environment, and are declared to be categorically exempt.
3. A Notice of Exemption has been filed in the office of the County Clerk of Orange County, California. A copy of the Notice of Exemption marked Exhibit "C" is attached to this Report and is hereby made a part of this Report.
4. All environmental evaluation proceedings necessary for the formation of Assessment District No. 78 have been completed to my satisfaction, and no further environmental proceedings are necessary.
